

PARROT BLUETOOTH

PASER CONVERSO DISPLAY VW

MANUAL OF INSTALLATION AND USE rev. 1.0 12

The interface in object is designed to equip VW and Skoda with Parrot Bluetooth hands-free system. The kit consists of: the adapter PASER CONVERSO DISPLAY for steering wheel commands and display (MFA PLUS), that allows the integration of the system without adding the control pad of the kit and without external display to visualize the functions.

The system also provides the connection to the iPod, with USB and AUX input for external audio source.

INSTALLATION

The installation of the system is simple because the kit is equipped with PLUG & PLAY connection. The steps are:

- Remove the OEM radio.
- Connect the plug & play cables.
- Connect the unit Parrot MKi9000 (at least with software version 1.90).
- Lay down the microphone
- Lay down the wiring
- repositioning of the OEM radio into its housing.

ATTENTION!
THE CAR KIT SOFTWARE
VERSION MUST BE AB-
SOLUTELY FROM THE
1.90 ONWARDS.
THE DISPLAY VW & SKODA
COMPATIBLE IS MFA PLUS.

4. STEERING WHEEL COMMANDS AND DISPLAY MODULE
5. MICROPHONE
6. CONNECT TO THE HANDSFREE KIT
7. CONNECTION OF: IPOD or USB or AUX IN

DIP SWITCHES SETTING

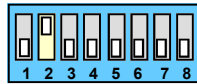

Red VW Display
And 2 phone buttons

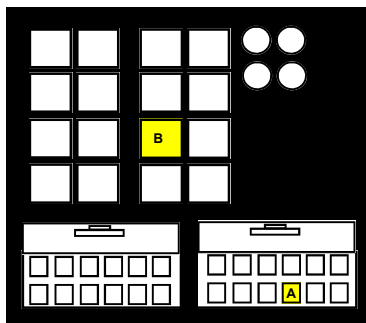

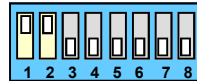

Red VW Display
And 1 phone button

White VW Display
and 1 phone button

White Display Skoda

Depending on the model and year of manufacturing of the OEM radio, the mute input can be in two different locations; the new radios have the mute in position A as shown in the diagram alongside; the old generation of radios, in position B. In any case, we suggest you always to control the radio diagram.

ATTENTION! IT MUST TO ACTIVATE THE BLUETOOTH FUNCTION ON THE BODY COMPUTER AS DONE FOR THE OEM VW BLUETOOTH CAR KIT

ATTENTION!
THE CARKIT SOFTWARE VERSION MUST BE ABSOLUTAEELY FROM THE 1.90 ONWARDS.
OLDER VERSIONS ARE NOT WORKING AND CAN FROZE THE SOFTWARE OF CONVERSO!
IN CASE OF OLDER SOFTWARE VERSIONS OF THE CAR KIT PLEASE UPGRADE THE CAR KIT SOFTWARE WITHOUT CONVERSO CONNECTED!

BLUETOOTH PROFILE ACTIVATION

The system in object is designed to provide the VW and Skoda vehicles with Bluetooth handsfree. For proper functionality, you must to enable the phone function on the head unit of the vehicle using the VAS. Please follow the steps described below:

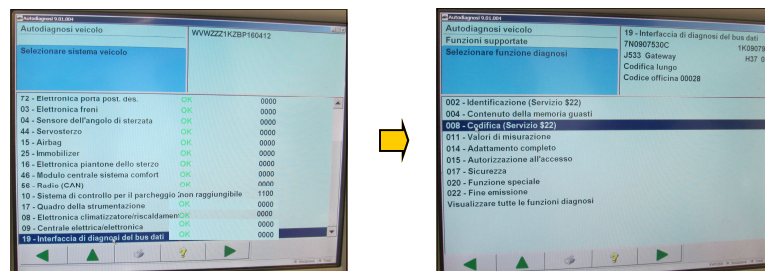

Connect the VAS diagnosis computer to the OBD plug of the vehicle.

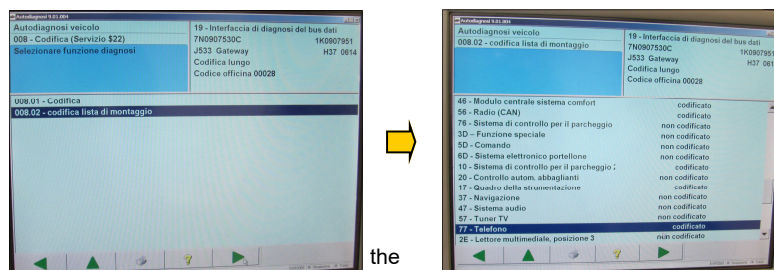

Select the voice **Self-diagnosis**.

Select the address 19 and so, at the next window, the profile 008.

In the profile 008, please select Setting List encoding and so the address 77, PHONE.

Please confirm the code; encoding is done.

the

system will confirm that

The activation is done.
