

BLUEBACK

# BLUEBACK

## MAIN FEATURES

BLUEBACK has expressly been created for FIAT, ALFA ROMEO, LANCIA and ABARTH cars and it allows you to replace the OEM car radio, recovering both the steering wheel commands and the OEM handsfree kit BLUE & ME functions.

The kit includes 2 units:

- unit that allows you to recover the steering wheel commands
- unit that permits the BLUE & ME kit complete recovering (except for the volume regulation function from USB)

BLUEBACK is provided with Plug & Play harnesses, for a fast and reliable installation. With BLUEBACK it will be possible to manage your radio and your handsfree kit functions exactly in the same way of the original system.
