

CONVERTER

Compatible with THB BURY CC9060

Converter is an interface able to connect OEM car steering wheel commands to any THB Bury CC9060. Therefore THB Bury CC9060 handsfree kit system functions will be handy!

Thanks to Converter you can easily manage your phone whenever you want, visualizing on your original car display all THB hands free kit information like: caller telephone number/name, phone book, settings, menu items, etc. Converter can be upgraded, in perfect Paser style! Installation is fast and easy, thanks the Plug & Play harness included.
