

MULTICAN

UNIVERSAL PRODUCT ABLE TO MANAGE PARROT HANDSFREE KIT (CK AND MK SERIES)
FROM SWC FOR CAR WITH CANBUS PROTOCOL.

Compatible with:

Parrot®

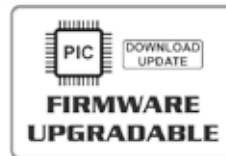

MULTICAN allows you to control PARROT CK3000 Evolution, CK 3100 LCD, MK 6000, MK 6100 bluetooth Handsfree kits directly from the car steering wheel commands on cars having Canbus protocol system.

MULTICAN has all Canbus protocols in its memory.
To select the right protocol, you only have to connect the unit to the Canbus car net.

MULTICAN is self-programming!

MULTICAN can be upgraded!

The wide range of Plug&Play “T” harnesses now available are listed on our web site www.paser.it.
