

SPECIAL KIT UNICO DUAL

MITSUBISHI OUTLANDER 2013 / 2017
MITSUBISHI ASX 2013 / 2017

SPECIAL KIT UNICO DUAL MITSUBISHI is a module that allows you to recover the OEM car amplifier. Original car systems are more and more sophisticated, most of them are equipped with high-tech devices such as the amplifier.

Considering the great demand for the OEM radio substitution, it has been necessary to create a new line of modules able to connect the OEM amplifier to the aftermarket radio.

SPECIAL KIT UNICO DUAL MITSUBISHI is the solution. Few and easy operations are necessary to integrate aftermarket radios with the OEM system. The connection of the kit is Plug&Play!
