UNIKA

STEERING WHEEL COMMANDS RECOVERY

UNIKA is a universal interface able to connect OEM car steering wheel commands to Parrot handsfree kit, MKi/RKi series, radio Asteroid Classic / Smart models and Asteroid Tablet.

PLUG & PLAY CONNECTIONS

For a faster interface connection, it is possible to buy separately the Plug & Play harnesses (for Asteroid Classic / Smart). The wide range of Plug & Play harnesses is available on website www.paser.it.

CAR COMPATIBILITY

UNIKA has been studied to work with any car model having resistive, Canbus or Gmlan steering wheel commands protocol system. This feature makes Unika a very reliable interface.

EASY TO USE

Thanks to UNIKA you can easily manage your music and your phone whenever you want. Independently to the kind of configuration of the steering wheel commands, UNIKA allows you to manage all the handsfreekit functions through key sequences.
