INSTALLATION MANUAL

CF0035VWKM11

KIM CANBUS interface with:

Steering Wheel Remote Control

Vehicle Information Services

Compatible with KENWOOD Multimedia units from 2012 with EXT/IF connection.

DESCRIPTION

KIM is an interface designed for KENWOOD Multimedia only.
 This device is able to recover the Steering Wheel Remote Control commands of the vehicle and to visualize integrated vehicle services such as "Parking Sensors", "Climatronic" and future services in the KENWOOD Multimedia system.

INSTALLATION

Before you start the installation please take care of the following:

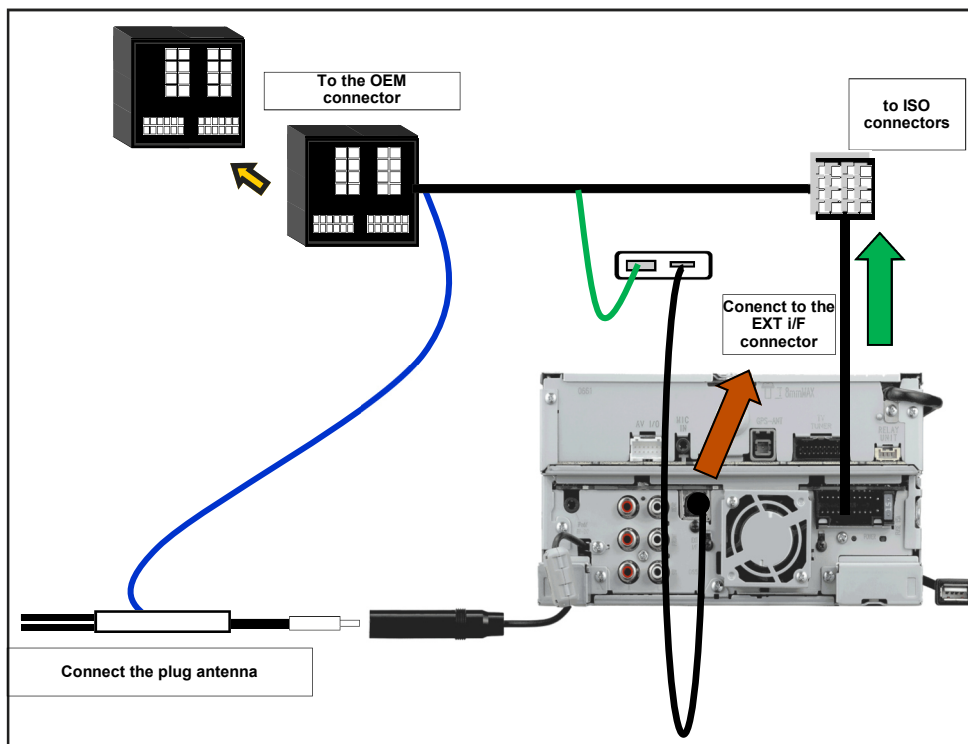

- Park the vehicle in a save spot, applying parking brake and remove the ignition key
- Be sure not to damage any vehicle parts
- Disconnect the battery
- Revert to the service manual for further safety details
- This manual could be changed for better instruction, and / or changes in the installation instructions
- Be sure to have the latest version of this manual.

To connect the KIM module use the "Plug & Play" harness for the specific type of car and model. After the complete installation, the KIM will auto detect the car's protocol. This operation will be shown with fast red flashes of the LED on the KIM. Once the car's protocol is recognized the LED of the KIM will turn into GREEN, confirming the correct setting.

WARRANTY

THIS PRODUCT IS GUARANTEED FOR TWO YEARS AGAINST ANY MANUFACTURING DEFECT.
PURCHASE INVOICE IS REQUIRED AS A VALIDITY OF THE GUARANTEE
